Subject: Oppositino to Mirant Operating Permit

Dear Mr. Darton,

As a resident of the City of Alexandria I oppose the approval of the Mirant operating permit for several reasons

1. It does not meet National Ambient Air Quality Standards for PM2.5 and Mercury
2. The permit does not provide stringent emission limits that are essential to protect our health.
3. Baghouse technology is a minimum requirement for continued operations, which will ensure the plant meets the National Ambient Air Quality Standards.
4. Other states have implemented laws to control PM2.5, why not Virginia? The City of Alexandria has solutions and we need to work together to protect the health of the people of Alexandria. Other states protect their population.

Sincerely,

Connie Paradise
